

## THREATENS EXTRA SESSION

President Demands Action on  
Reciprocity

## HE ISSUES ULTIMATUM

If It Fails, Congress Will Be at Once  
Reassembled Soon After March 4.  
He Believes the Country Favors Agreement.

Washington, Feb. 9.—If administration senators had any doubt about the attitude of President Taft toward the Canadian reciprocity agreement, that doubt has been removed.

When Senators Crane and Carter returned to the capital yesterday from a conference with the president at the White House they brought to their colleagues a message that there must be a vote on the agreement at this session or Congress will be called back in extra session almost immediately after adjournment on March 4.

Although Messrs. Crane and Carter declined to discuss their mission to the White House, the report soon leaked out that the president was insistent upon a vote.

It is said he made plain his belief that the country generally favored the adoption of a reciprocal trade agreement with Canada, that the McCall bill to put the agreement into force will pass the House with a large majority and that the Senate would enact the measure if given an opportunity to vote upon it.

The rules of the Senate, which permit untrammelled discussion of a measure, will be the principal barrier to a vote in that body. It is known that Senators Heyburn and Bailey are bitterly opposed to the agreement and that the opposition extends also to most of the progressive Republicans who represent agricultural states. Some of these senators have hinted that their relations with the White House have not been sufficiently pleasant of late to cause them to exert themselves in support of an administration measure.

Senators Crane and Carter entered at once upon a campaign designed to advance the president's programme. Already, they have conferred with other senators who are especially friendly to the administration and have sought to enlist their services in a movement to obviate the necessity of an extra session. The impression has prevailed at the capital that President Taft would insist upon votes on both the Canadian measure and the bill to create a permanent tariff board, but this partially was removed yesterday. According to the general report at the capital, the president placed the Canadian agreement above the tariff board measure and he would be satisfied if the former were enacted at this session. In the event the permanent tariff board should fail, it is believed that an appropriation will be voted in the closing days of the session to continue the existing board for another year.

If an extra session should be called by reason of the failure of the Senate to grant a vote on the Canadian agreement, it is understood that the president then would demand the creation of a permanent tariff board and might go so far as to promise data on the wool and woolen schedule of the tariff act if the Democratic House desires it. John Norris, president of the Publishers' Association of the United States, informed the ways and means committee of the House yesterday that he would present a statement to-day showing that the paper and pulp clause of the Canadian agreement should be immediately ratified without change of language.

Mr. Norris stated that mistaken impressions existed as to the effect of this feature of the agreement; and that he would have a complete summary of Canadian restrictive laws and other facts bearing upon the situation to present to the committee.

Lack of assurance of permanence in any action Canada might take to put into effect on the reciprocity agreement was charged in a symposium of views of individual members of the committee yesterday. It was a hearing mostly in name only, for those present, other than the members, were two representatives of paper interests and the newspaper correspondents.

Representative Humphrey of Washington claimed the agreement imposed disadvantage on the fishing, lumber and other interests of his state. He said:

## Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

## Hood's Sarsaparilla

Will purify your blood, clear your complexion, restore your appetite, relieve your tired feeling, build you up. Be sure to take it this spring.

Get it today in usual liquid form or tablets called Sarsatabs. 100 Doses \$1.

fishing was Washington's greatest industry and one greater than any other state could boast. The agreement, he said, would permit free admission into the United States of the fish of Canada, which subsidies that industry. He supported the agreement as it applied to logs, some of the Canadian provinces absolutely prohibiting exportation of logs.

Acting Chairman McCall intimated that there was no danger of either government committing a breach of faith after the agreement's ratification.

## CANADA WILL PASS AGREEMENT.

Dominion Minister King Sure of Favorable Action at Ottawa.

New Britain, Conn., Feb. 9.—W. MacKenzie King, minister of labor of Canada, in an interview here, following an address which he gave Tuesday night before the Central Congregational club on the work of the department of labor of the dominion, discussed the pending reciprocity treaty between this country and Canada, briefly. After begging to be excused from giving his personal views on the question, as he has not given utterance to them in Canada, he said: "As far as the Canadian government is concerned, I am positive that the treaty will go through, as it has been adopted as a government measure. We believe also the treaty will pass your Congress and it will be for the mutual benefit of both countries."

## VERY KEENLY INTERESTED.

Great Britain Much Exercised Over Reciprocity Agreement.

London, Feb. 9.—Lewis Harcourt, secretary of state for the colonies said in the house of commons yesterday that there was no reason to believe that Canada was desirous of submitting a question concerning her internal affairs to the judgment of other dominions. He understood, however, the impossibility of the immediate completion of the legislation necessary to make effective the reciprocity agreement between the United States and Canada, and accordingly there will be ample time for consideration.

The secretary's expression was in reply to a request that the colonial office suggest that the colonial government postpone ratification of the agreement until after the imperial conference meets. The opposition amendment to the address in reply to the speech from the throne urging reform with special reference to the proposed American-Canadian tariff agreement, was moved by J. Austen Chamberlain, before a crowded house yesterday.

The message from W. S. Fielding, the Canadian finance minister, defending the reciprocity arrangements, was published yesterday morning and took some wind out of the sails of the opposition. However should the nationalists abstain from voting, the government's margin of victory probably would be small. The debate is likely to occupy two full days.

Mr. Chamberlain at the outset remarked upon the delicacy of his task, which involved the policy of one of the great dominions. He deprecated any suggestion that he was criticising the action of either Canada or the United States in the matter of the proposed agreement. He asserted that the agreement removed Canada from the imperial orbit and drew her into the vortex of continental politics and the interests of the United States. One immediate result would be that food in England would cost more. Was the government, he asked, taking steps to secure for British manufacturers the same right of entry to the markets of the United States which the Canadian ministers were securing for Canadian goods.

## INSURGENTS STAND PAT IN NEW YORK

Conference of Democrats Takes 19 Ballots for Senate Candidate Without Result.

Albany, N. Y., Feb. 9.—Another fruitless ballot for United States senator was taken by the legislature yesterday after the Democratic members, regulars and insurgents, had spent over two hours in a conference called in the hope of finding some means of breaking the deadlock.

The conference failed to change a single vote, and after the 19th joint ballot the conferees declared they had had enough, and the caucus was dissolved.

William F. Sheehan's friends had predicted that the conference meant his eventual election. The insurgents, while willing to discuss the situation, stated their intention of standing their ground. Summed up in a nutshell, the situation apparently has not changed an iota since Tuesday.

## ROOSEVELT ATTACKS BIGOTS.

He Shows an Interest in Progressive Christianity.

Reno, Nev., Feb. 9.—Theodore Roosevelt, writing to Senator Dix Smith, a fellow member in the New York Assembly and an acquaintance since 1883, has accepted an invitation to speak in Reno on April 3, and in a characteristic letter declared himself interested in progressive politics and even more so in "progressive Christianity."

"We must not let the bigots on either side bring any trouble to us in America," he concluded. The letter came in response to Mr. Smith's urgent request that Colonel Roosevelt speak in Reno on "Civic Righteousness." Mr. Smith told him the people of Reno had subscribed \$11,000 for a Y. M. C. A. building in ten days, and the most active worker was P. L. Flanagan, a Catholic and member of the national Republican committee.

take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

## SIX ROUNDS AND A DRAW

Wolgast and Brown in Hard  
Fought Contest

## BROWN NEVER BETTER

He Had a Slight Advantage Over Ad.  
Wolgast in a Majority of Rounds,  
But His Blows Lacked  
Steam.

Philadelphia, Feb. 9.—Ad. Wolgast, lightweight champion of the world, and Knockout Brown of New York fought a hard six-round draw before the American Athletic club in this city last night. Although the New Yorker had a slight advantage in a majority of the rounds, his blows lacked steam compared with those of the champion. Wolgast seemed unable to fathom the peculiar style of Brown and the latter many times landed on Wolgast's body and head without a return. Wolgast tried all the tricks of the trade to reach his opponent, rushing and rushing to such an extent that he was twice warned by the referee.

Brown never fought a better battle during his career, while the showing of the champion, especially in the early rounds, was a disappointment. Digger Stanley, champion bantamweight of England, was defeated by Tommy O'Toole of this city. Joe Jeannette had the advantage over Jim Barry, and Jimmy Carroll of California outpointed Young O'Leary of New York in the preliminaries.

## 20 YEARS FOR PART IN OHIO LYNCHING

Court Refuses New Trial in the Case  
of Killing of "Dry" Detective  
in Newark.

Newark, O., Feb. 9.—Judge Weygant yesterday overruled the motion for a new trial for William McKinley, a shopkeeper, who was found guilty of manslaughter for complicity in the lynching of Carl Ethrington, a "dry" detective, in this city last July, and sentenced McKinley to 20 years in the Ohio penitentiary.

## BUSY CAREER ENDED.

Death of Frederick Campbell, Third Earl  
of Cawdor.

London, Feb. 9.—Frederick Archibald Vaughn Campbell, third earl of Cawdor, died yesterday. He was born February 13, 1847, and was distinguished in official and business affairs, his public posts including that of first lord of the admiralty, to which he was appointed in 1905.

Earl Cawdor was noted for his business capacity and sagacity. Before he succeeded to the earldom he was a popular member of the House of Commons for 11 years, sitting for Carmarthen-shire.

Subsequently defeated for Parliament, he retired from politics and became the chairman of the Great Western railway (1896-1906) and devoted his energies to great business interests. He was appointed an ecclesiastical commissioner in 1880 and first lord of the admiralty under the Balfour ministry in 1905.

In 1868 the earl married Edith Georgiana, eldest daughter of the late Christopher Turner of Stoke Newington. His heir is his eldest son, Viscount Emlin.

## HIGHER POSTAL RATES.

Proposed for the Advertising Pages of  
Periodicals.

Washington, Feb. 9.—It is reported that the Senate committee on post offices and postroads will adopt an amendment to the post office appropriation bill to increase the second class rates on advertising matter in periodicals.

The amendment was agreed upon at the White House yesterday in a conference between President, Vice President Sherman, Postmaster General Hitchcock, and Senators Carter and Crane.

## Rate Revision, Mellen Style.

Springfield, Mass., Feb. 9.—The railroad fare from Springfield to Brattleboro, Vt., is \$1.30. The fare from Brattleboro, Vt., to Springfield is \$1.55. This discrepancy has been called to the attention of the proper authorities, who have agreed to equalize rates by increasing the fare from Springfield to Brattleboro leaving the fare in the opposite direction unchanged.

## TEXAS STRAWBERRY MARKET.

Houston Reports Early Alvin and Pasadena Drops Due to Mild Weather.

Houston, Tex., Feb. 9.—Texas strawberries are being marketed, according to advices received from Alvin and Pasadena. First shipments were reported from those points Tuesday. The early movement of the crop is due to the unusually mild weather experienced recently in southern Texas.

## D.F. DAVIS' SUCCESS

Great Popularity of Plan to Sell Medicine at Half Price and Guarantee a Cure.

D. F. Davis, the enterprising druggist, rather than wait the ordinary methods of introduction, urged the Dr. Howard Co. to secure a quick sale for their celebrated specific for the cure of constipation and dyspepsia by offering the regular 50c bottle at half price.

The wonderful success of this plan was a great surprise even to Mr. Davis, and to-day there are scores of people right here in Barre who are using and praising this remarkable remedy.

In addition to selling a 50c bottle of Dr. Howard's specific for 25c, D. F. Davis has so much faith in the remedy that he will refund the money to anyone whom it does not cure.

This latest achievement of science is of great value in curing such headaches. Thousands of sufferers are to-day free from that painful disease, solely through the use of this specific.

## NO BETTER WAY TO BREAK A BAD COLD

Surely Cures the Most Severe Cold  
and Ends Gripe Misery in  
Just a Few Hours.

The most effective and harmless way to cure the gripe or break a severe cold, either in the head, chest, back, stomach or limbs, is a dose of Pape's Cold Compound every two hours until three consecutive doses are taken. You will distinctly feel the cold breaking and all gripe symptoms going after the very first dose. It promptly relieves the most miserable neuralgia pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, soreness, stiffness and rheumatic aching.

Take this harmless compound as directed with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end gripe misery as promptly and without any other assistance or bad after effects as a 25 cent package of Pape's Cold Compound, which any druggist in the world can supply.

After three years' research we have conclusively demonstrated that quinine is not effective in the treatment of colds or gripe.

## TARIFF ON NECESSITIES.

May Be Officially Opposed by National Consumers' League.

Pittsburg, Feb. 9.—Action may be taken by the national council of the National Consumers' league, in convention here, on a resolution asking President Taft to call an extra session of Congress to abolish the tariff on all necessities of life.

The resolution was first brought up at an executive session in New York a couple of weeks ago by Mrs. Frederick Nathan of New York, vice president of the national organization. There is opposition to the resolution, however, on the ground that it would interfere with the legitimate objects for which the league stands.

Meetings of the various committees were held during the forenoon.

## KILLS RAILROAD INQUIRY ORDER.

Legislature Indefinitely Postpones Measure as to B. & M.

Concord, N. H., Feb. 9.—The House of Representatives yesterday indefinitely postponed on a viva voce vote the resolution introduced on Tuesday by Representative Wentworth of Plymouth, directing the special committee on railroad rates to investigate charges of inefficiency and mismanagement in the past history of the Boston & Maine railroad. Chairman Pillsbury of the committee denounced the resolution as a malicious attempt to hamper the committee and to make it impossible for it to present a satisfactory report at this session of the legislature.

## 4 DIE BY GAS; SUICIDE AND MURDER PACT

Frank Bernard and Wife of Brooklyn  
Believed to Have Planned the  
Death of Themselves  
and Children.

New York, Feb. 9.—Frank Bernard, his wife, Mamie, and their two little children, Carl and George, were found dead yesterday in their home on Fulton street, Brooklyn, the victims of escaping gas, which flowed from a jet which had been apparently accidentally left open.

## LAST PUBLIC EXECUTION.

Archibald Bates Was Hanged at Bennington Center, 72 Years Ago.

Bennington, Feb. 9.—Yesterday was the 72d anniversary of the last public execution in the state of Vermont, the hanging at Bennington Center of Archibald Bates of Shaftsbury. Of the several thousand persons who witnessed the event there is but one known survivor, Stephen Niles of Shaftsbury now in his 90th year. He was not only a witness of the execution but he also had an official part in the proceedings being a member of the Shaftsbury militia company which escorted Bates from the jail at Bennington Center to the scaffold which was erected in an open field and near the spot where the battle monument now stands.

Bates was executed for the murder of his sister-in-law, Harriet Jane Bates, whom he shot through a window as she sat in a chair nursing a three-month old child. He was tried and convicted at the June term of court preceding his execution and confessed his crime. He had been a persistent hard drinker for years but the testimony at the trial showed that the predominant cause for the deed was jealousy of his brother's family whom he believed had been favored in the distribution of the father's property.

At the time of the murder Stephen Niles owned the farm adjoining that on which the crime was committed and the young man was one of the first to arrive on the scene after the fatal shot was fired. The home place on which he lived at the time was later deeded to him by his father and he lived there for many years. At the present time he is living with his son, Andrew C. Niles, on a farm about three and one-half miles from North Bennington village and is looking forward to the observance of his 90th birthday anniversary which will occur on the fifth of July next. He is still mentally and physically active for a person about to begin the last decade of a century. His mind is clear and his hearing is perfect. He readily recalls the incidents of the execution and speaks frequently of the fine appearance made by the Shaftsbury militia company on that day. The company was fully uniformed in blue coats and brass buttons, white vests and high hats. During the execution the soldiers formed in a hollow square about the scaffold to keep back the crowd which was probably the largest ever assembled in town up to that time.

Mr. Niles is the oldest living person in Shaftsbury and has resided in that town all of his life. He has been a farmer always but in his younger days he occasionally followed the occupation of a sheep drover. On one occasion he gathered a flock of 5,000 sheep in the southern part of the state and drove them into Franklin county where he contracted for hay with the intention of passing the winter. Wool was going up in price at the time and the farmers living in that section were so anxious to increase their flock that they bought every head. It was a lucky thing for him that they did, for during the winter wool took a big drop and there was no market for sheep in the spring.

## TEN PERISH IN BOILER EXPLOSION

Were Watching Test of Repaired Locomotive—All Were Blown to Fragments.

Smithville, Tex., Feb. 9.—Ten shop employees of the Missouri, Kansas & Texas railroad were torn to fragments and seven others were injured yesterday, when an engine under repair exploded in the Smithville yards. Besides the loss of life, railroad property valued at \$20,000 was destroyed.

The dead are: Henry O'Rourke, Charles Gray, Thurston McNeill, F. P. Parnell, E. W. Phillips, Henry Clark, Aaron Harless, Detainer, white; Phil Hubbard and Al Nichols, negroes.

The locomotive had just been run from the repair shop to be tested when the explosion occurred. O'Rourke, a machinist, was attaching a safety valve when the explosion occurred. Two other locomotives standing on nearby tracks were wrecked and the roundhouse was partly demolished.

## POWERS AGREE ON SAILING.

Taft Gets Assent to International Regulation in Behring Sea.

Washington, Feb. 9.—After several years' work, the president has at last been able to secure the assent of the maritime powers, whose subjects are engaged in the seal fisheries, to an agreement for the regulation of those fisheries that is calculated to replenish the seal herd in Behring sea.

## NIGHT-RIDERS ROUT JAPANESE.

Vigorous Opposition to Employment of Orientals in Colorado.

Delta, Col., Feb. 9.—Opposition to the employment of Japanese labor in the orchards of western Colorado came to a head Monday night, when night-riders visited the camp of Japanese employed in setting out fruit trees at a ranch near here and drove them off, warning them not to return, on pain of death. The Japanese left the ranch.

## "Just Say" HORLICK'S

It Means  
Original and Genuine  
MALTED MILK  
The Food-drink for All Ages.

More healthful than Tea or Coffee. Agrees with the weakest digestion. Delicious, invigorating and nutritious. Rich milk, malted grain, powder form.

A quick lunch prepared in a minute. Take no substitute. Ask for HORLICK'S. Others are imitations.

## HEIKE HEARD IN RILEY CASE.

Says He Never Authorized Use of Alleged Stolen Papers.

New York, Feb. 9.—Judge Martin and a jury in the United States court yesterday took up the trial of the case of Thomas B. Riley, special investigator for the interstate commerce commission, who is accused of having more than a year ago stolen Attorney General Wickham's "sugar trust" letter from U. S. District Attorney Wise's office, and caused it to be printed without authority.

Riley is also charged with the theft of other papers in the criminal proceedings against the American Sugar Refining company and its officials. The government alleges, were put back in the official files. Riley has been out on \$30,000 bail since his arrest in January, 1910.

Charles R. Heike, secretary of the American Sugar Refining company, who was convicted of conspiracy charges growing out of the underweighting

## LAMINITIS, FOUNDER

Dr. A. C. Daniels (Inc.)

These two terms indicate one and the same disease. The causes of this foot ill are many and variable and some animals seem predisposed to take on the trouble more easily than others, for instance, one of a plethoric temperament, put to unaccustomed work, or those having suffered from a previous attack, which always weakens the condition, and makes succeeding attacks more easy of contracting. Then unusual excitement, bad shoeing, careless paring of the feet, removing the sole support, high walks with low toe pieces, concussion, exhaustion, sudden changes of temperature, standing in a cool brook when in a heated condition, over driving, too much food, purgatives, etc. Exhaustion is more frequently the cause of this trouble. Shipping from distant points often provokes laminitis; drinking when in a heated condition large amounts of cold water, the animal being overheated will set up the inflammation. Barley, wheat and even corn will sometimes cause the inflammation which constitutes laminitis. The symptoms are so evident description is hardly required. The evident constant pain, and interference with ordinary locomotion, the full hard pulse, rising temperature, going to 100 or 106 degrees, rapid or panting respiration, dilating nostrils, sweating profusely and showing every evidence of pain. The feet affected are hot and dry, the fetlock throbs and the feet are tender and the animal rests as little as possible. Laminitis may attack one or more of the feet but the hind feet are not so often troubled with this form of disease. When one fore foot is attacked the symptoms are not as severe or the trouble is dangerous, but the moving upon or bearing the weight on the inflamed foot quickly discloses the injured member. The heel of the foot is first brought to the ground, the weight then being thrown with a sort of a hop to the other side, while turning about is done with difficulty.

(To be continued.)

frauds, was called to court yesterday and asked if he had ever authorized publication of his letters or other alleged purloined documents. He said he never had.

## 10,000 MILES FOR SUBMARINES.

Three British Craft Sail for Hongkong from Portsmouth.

Portsmouth, Eng., Feb. 9.—Three submarines of the "C" class sailed for Hongkong yesterday and were escorted by the cruiser Bonaventura. The distance is approximately 10,000 miles.
